YOU NEED A GAME PLAN FOR PRESERVING YOUR WEALTH

DON'T become a statistic.

According to Time*, almost **71%** Americans aren't saving enough for retirement and **1/3** have **zero** savings*

As a business professional, you're focused on the next case, the next sale, or the next earnings report. What you don't see are the obstacles you'll face down the road when it's time to retire.

At **Hudson Financial Group,** we focus on your future to give you the chance to live well the rest of your life, not just the rest of your working years.

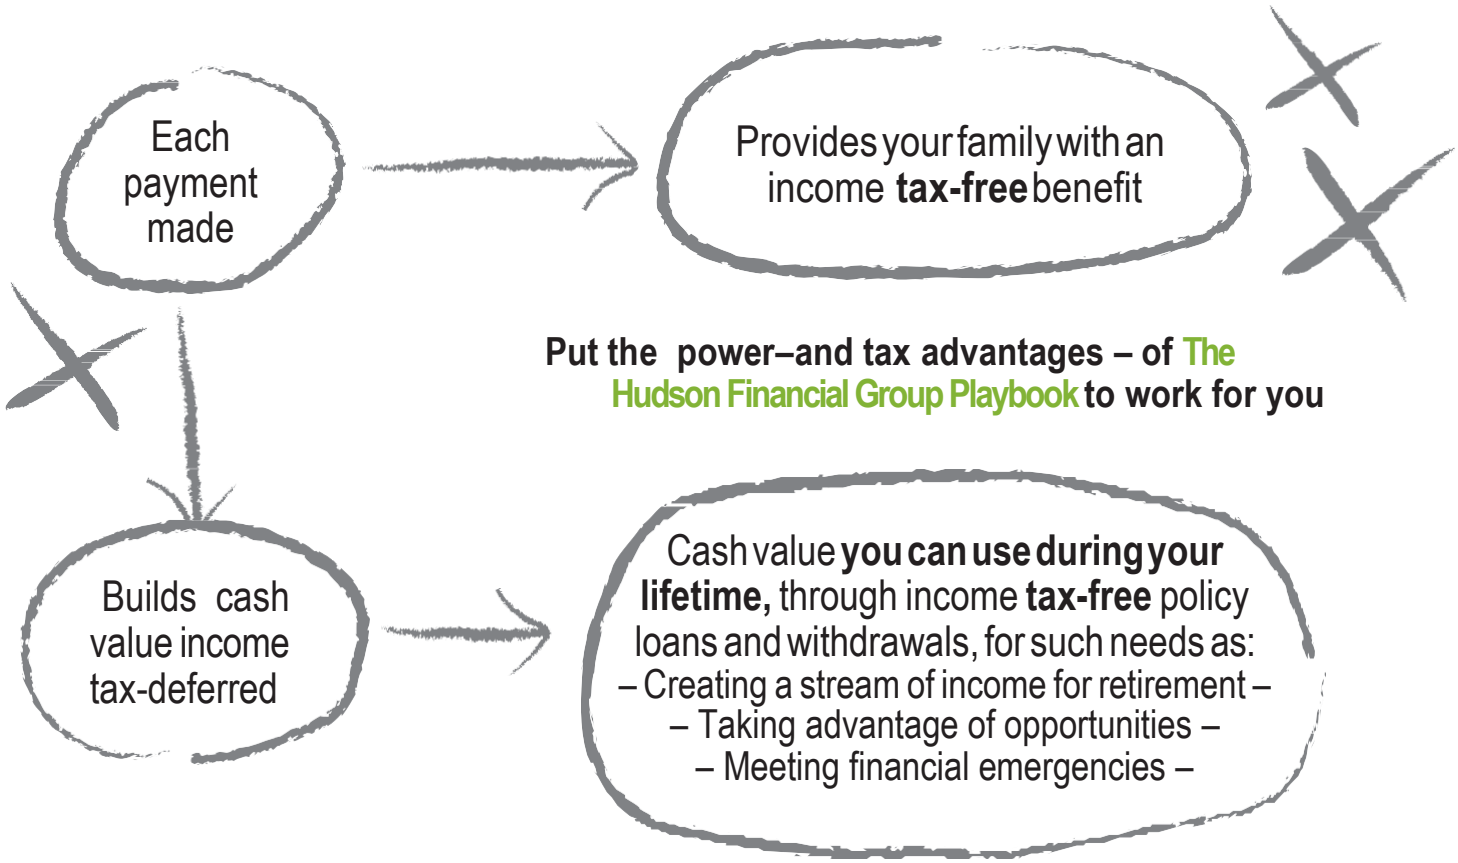

Your Income Protection Playbook

To help you provide protection for your loved ones (a death benefit), while ALSO offering you the potential for tax-free retirement income, we use a strategy that can:

- Reduce or eliminate taxes from your retirement income
- Eliminate risk of losing your retirement income through the power of indexing
- Access and control your money without penalty
- Provide living benefits for chronic, terminal or critical illness
- Generate lifetime income

HOW IT WORKS

Put the power–and tax advantages – of The Hudson Financial Group Playbook to work for you

This strategy provides both death-benefit protection and the potential to withdraw tax-free income.

You're working hard. Now it's time to fight for every dollar.

Hudson Financial Group is here to help you shelter and protect assets from taxes and other retirement risks.

Consult with us for straight talk about your financial future.

May qualify for an advanced strategy known as Premium Finance which allows you to:

- Leverage your sizeable income stream and high net worth to produce significantly higher benefits
- Generate 2x to 4x higher income potential versus non-leveraged plans

Game plan your financial future by meeting with us at Hudson Financial Group:
